The analysis of external and internal assessments by the numeracy team not only can Profile, a powerful tool in defining schoolwide numeracy initiatives and in committing to implementing them throughout the academic year, the teacher team tests, diagnostic. The time frame starts on the first day of school and ends on the last day of school. This diagnostic is a comprehensive assessment of student achievement in mathematics, reading, and writing. It includes both formative and summative assessments, and it provides a basis for planning instruction and evaluating the effectiveness of the instruction. The diagnostic is used to identify students who need additional support and to guide the development of effective instruction. The diagnostic is used to inform the development of the numeracy plan, which includes the identification of specific areas for improvement and the development of strategies to address those areas. The diagnostic is also used to evaluate the effectiveness of the numeracy plan and to guide the development of future plans. The diagnostic is an integral part of the numeracy process and is used to inform decision-making at all levels of the numeracy team.
